

Warmth & Comfort with Today's Oil-Heat

When choosing a heating oil company, consumers may want to be conscious about fuel quality. The old cliché “heating oil is all the same” no longer holds true these days. Consumers have a cleaner, safer, and healthier choice—**ULTRA LS Heating Oil™**.

Recently mandated in New York and many other Northeast states, Kero-Del took the lead many years ago when Chip Brosseau, President & CEO of Kero-Del, tested **ULTRA LS™** on his own heating equipment in his home. After two years of fantastic results, **ULTRA LS™** was then made available to our customers and, those customers have been enjoying the benefits of **ULTRA LS Heating Oil™** for over 10 years and counting.

An extraordinary product, **ULTRA LS™** has no offensive odors, has virtually eliminated annual furnace cleanings, eliminated fuel-related equipment failures, increased heating system efficiency, and has preserved the life expectancy of many oil furnaces (new or old); saving our customers hundreds of dollars each and every year!

As an added bonus, **ULTRA LS™** reduces harmful emissions emitted from the chimneys of oil furnaces. We're all concerned about air quality in Anne Arundel County, right? Well, reduced emissions from **ULTRA LS™** contribute to healthier air quality and a healthier Chesapeake Bay. At Kero-Del, our customers have a choice and greater control over how heating their home impacts our environment.

Founded and located right here in Anne Arundel County for over a quarter of a century, we have a professional, friendly staff and are able to customize a full array of services to suit your home comfort needs.
